Customer Reviews

I bought this to use as a visual aid with clients in my skin care practice. I treat a lot of acne and also live in a warm climate where sun protection is a necessity. Though basic, this flip chart is a great visual aid and will no doubt benefit my consultations and post treatment explanations.I shared it on an esthetics group I admin on Facebook and it has since sold out. I do think you should honor pricing to all, not just Prime members!!

I have this displayed in my treatment room. Just flip to the pertinent image and make it easy for a client to understand what is happening with their skin. Likes: Can write, highlight (then erase), use a pointer. Nice large images. Sturdy. Small Drawback: Printing is very small (although it doesn't bother me as I know the biology - it does make it a little difficult if the client wants to read it.). Wish there were more pages!

Great way to display and explain to clients the skin and it's different processes. I'd like to see a page devoted to hyper-pigmentation/melasma.

Perfect reference for a variety of basic skin-related questions. Large size though, so best on larger waiting room table or office desk. Heavy-weight materials should help it stand up to frequent use.

The print detail is fantastic and the quality of the card they used and the overall finish was far better than expected. Very nice. Charles

Great product! Was a bit larger than I expected, but still has good detail and information. This will help with my studies!

I thought it was like flash card size.....but no....it was like 18 inches tall. It's great! Big surprise in many ways!
