## Customer Reviews

went from 6" to 7-1/2" plus 1"+ in girth. You need an understanding wife, and a door that locks.

This book rambles on and gives no real help. Same information free on line. The author could have given other info, and shorten what was written. I didn't get any helpful info.that I didn't already have from youtube videos. Save your money...

Everything is true, takes time and dedication.

I haven't saw any noticeable difference . If you want to you could internet search jelqing.

I have a very small penis, so small that it's not functional. I can't have sex with women OR men, it's so bad. I'm a chronic masturbator and tat has been my only comfort in life, aside from my professional creative career. This book helped a little but my penis is still too small to use for anything but urination (sitting down). Don't waste your money, guys! Unless your problem is not as

bad as mine it won't do anything. Back to the drawing board... I have become such a bitter old man because of my tiny penis. I thanked God for this book until it didn't do anything for me. My doctor says my penis is the smallest he's ever seen, even after doing internet research. I phoned my parents to tell them I'm scared (they told me it would grow bigger if I masturbated in front of them but it never did). Maybe your parents are smarter than mine and can figure this dang thing out!!

This product does all it advertises and more. I am going to stop using these techniques, my wife is now telling me she doesn't want anything larger. That really does bunches for the old ego.

This was a gag birthday present. The recipient was really happy, even though he had expected pictures.

It works.
