A History Of Western Art Revised

Synopsis

Appropriate for one-semester art history surveys or historically-focused art appreciation classes, *A History of Western Art, Revised Fourth Edition*, features additional color which provides students with a greater understanding of the works of art. Focusing on the Western canon of art history, the text presents a compelling chronological narrative from prehistory to the present. A non-Western supplement, *World Views: Topics in Non-Western Art*, addresses specific areas of non-Western art and augments the Western chronology by illustrating moments of thematic relationships and cross-cultural contact. *World Views* is available at a discount when packaged with *A History of Western Art*.

Average Customer Review: 4.4 out of 5 stars [See all reviews](#) (22 customer reviews)

Best Sellers Rank: #227,761 in Books (See Top 100 in Books) #247 in [Books > Education & Teaching > Schools & Teaching > Education Theory > History](#) #289 in [Books > Textbooks > Humanities > Art History](#) #1641 in [Books > Arts & Photography > History & Criticism > History](#)

Customer Reviews

I purchased this text for an online class. It was MUCH cheaper through [Amazon](#) than the college bookstore. I was a bit concerned at first because of discrepancies in the ISBN#'s but apparently I ended up with the correct edition. The delivery was prompt and the book arrived in perfect condition. I had ordered a text for a previous class through a third party at [Amazon](#) and received not only the wrong edition, but a version that was not sold in the states- (guess that's what I get for trying to go too cheap!) so I was a bit nervous! I have taken numerous other Art History classes and noticed that this text takes a slightly different approach, which is a nice change. Also, when it refers to another piece of art rather than just telling you the page number so you have to go flipping through the book it provides a small picture on the page, a nice touch. I also like that it covers art from medieval to present in one volume, other versions tend to split at the Renaissance, which gives more individual attention to

some areas, but it is nice to have a general overview in one place.

This book is very helpful for the class I'm taking this summer. Nice reading text that is very informative and colorful pictures.

But the class was based entirely on this book, so I guess it's a good book. The quality and usefulness of the book were good.

I bought this used, paperback book expecting to receive a semi beat up product because of the price. This book well exceeded my expectations. The delivery was prompt and the book was in perfect condition. There aren't any markings or highlighter markings it looked brand new.

Providing basic information and knowledge we need to know about Western Art. So very enjoyable to look through the photos of those famous and popular art work and get to know why they so famous

Typical textbook information.

This is a great book, contains many color pictures and excellent information. I recommend you to buy this book. It's perfect!!!

I love it
