Publisher: SAXON PUBLISHERS; 3rd edition (April 1, 2004)

Language: English

ISBN-10: 1591413206

ISBN-13: 978-1591413202

Product Dimensions: 8 x 1.8 x 10.8 inches

Shipping Weight: 4 pounds (View shipping rates and policies)

Average Customer Review: 4.1 out of 5 starsÂ  See all reviewsÂ  (27 customer reviews)

Best Sellers Rank: #39,808 in Books (See Top 100 in Books) #40 inÂ  Books > Teens > Education & Reference > Mathematics #106 inÂ  Books > Education & Teaching > Schools & Teaching > Homeschooling #365 inÂ  Books > Textbooks > Science & Mathematics > Mathematics

## **Customer Reviews**

You should purchase this book if you already have one complete kit and you are teaching more than one student, like I do. The 3 stars are not targeted at the content, which is FIVE STARS in my view, but at the VERY CONFUSING marketing of these items. The cover of this book says Saxon Math Homeschool (sic!) but this is ONLY the Student/Teacher Text. You will not be able to teach your child math if all you buy is this book. There should be THREE items in a complete package: a Student/Teacher manual (this one), the Solutions manual and the (reproducible) Tests and Worksheets. If you have one kid, buy the COMPLETE kit. If you have 2 or more kids, you should buy one complete kit and as many extra student/teacher books, such as this one, as you may need. If you do not have the ability to copy the worksheets, which is LEGAL, then you should also order additional Tests and Worksheets books. However, for one child, you will end up paying A LOT more if you bought these items individually. Having 2 kids, and this is my experience for the past 5 years, from 3d to 7th grade, I order the complete kit from an education bookseller or from if I could find it here and an extra textbook from or one of the alternative sellers supported by . By the way, Saxon's Math works. I am not a home schooler because I have a full-time job but I've been using it with my kids since 3d grade as a Math booster and I am happy with their A's. Besides math, children acquire

some discipline, study skills, test-taking skills and, me having 2 'students', they learn to compete as well.\_\_\_\_\_ On the Saxon method: A one-year Math cycle is

comprised of 120 lessons, 12 investigations and 23 review tests.
